Where Your Child
Always Comes First

SHARKS (5 Year Olds)

October was such a fun month, with the changing of seasons and watching the changing of leaves, carving pumpkins, experimenting with pumpkins and painting paper pumpkins. Making spiders and bats were spooky and are hanging in the classroom. We were very excited walking through the neighborhood, feeling the change of weather, making fall trees and finger painting the fall leaves. November brings just as much fun. The Sharks' weekly themes will include healthy eating, Turkey, Native Americans/Pilgrims and Thanksgiving. Some activities will include Making Turkeys, identifying healthy vs. unhealthy foods, making Native American headdresses, and sharing a Thanksgiving lunch together. We will be working on counting the numbers 1-20 and continue to work on our first names.

BUTTERFLIES (4 Year Olds)

In the month of October, students began to experience changes in our environment. The children were introduced to our Tree unit. Throughout the tree unit, students were introduced to the life of the tree, why the tree changes colors etc. Our students went on a lot of nature walks last month and will continue to do so in the month of November, weather permitting.

Please make sure to bring your child dressed appropriately for our unpredictable Chicago/Evanston weather. Please see one of the teachers in the room to set up a parent/teacher conference that works for your schedule. If you are unable to meet during our times we can set up a FaceTime or social media video conference. Thank you to all of our parent helpers😊😊😊. Stay on the lookout for a possible field trip in the middle of the month.

Thanks from the Butterflies, Mrs. Maritza, Ms. Jasmin & Mr. Robert. Please if you have any questions feel free to contact us at 847-475-1467 EXT 14

Where Your Child
Always Comes First

CHIPMUNKS (3 Year Olds)

Goodbye October and hello November and the snow☺. The chipmunks will continue to talk about pumpkins and transition to a new theme “Harvest Season” in the month of November. What are some of the foods that we harvest during the season of fall? Where do fruits and vegetables grow? Who helps us get all our delicious fruits and vegetables? What is the process of harvesting? We are also feeling thankful in the chipmunk room! This month we will be discussing the meaning of being thankful & what are we being thankful for? How can we show gratitude to our love ones? Please see one of us to set up a parent/teacher conference ☺☺☺

BUMBLEBEES (2 Year Olds)

Welcome to the month of November. October was very fun, children were able to discuss fire safety, school bus safety, Stranger danger, pedestrian safety and about October fun. To help us teach children about safety, we had the honor of having the Evanston fire department come over and speak to the children about safety. Now that children are beginning to follow routine a lot more, they can focus more on what I am teaching them. We will continue to discuss shapes and colors during the month of November, and we will do a lot of matching and sorting. Children will be encouraged to use their words and solve problems instead of crying and expecting for things to go their way. We will also be discussing Pumpkins, fruits, vegetables, giving thanks and DAY AND NIGHT, since we will soon come to the end of daylight savings. Please don't forget to keep up with TEACHING STRATEGIES. It's also important to keep up with the theme of the week to continue discussions at home. I hope everyone enjoys this beautiful month and the new weather.

Don't forget to sign up for parent/teacher conferences.
