SHARKS (5 Year Olds)

Dear parents, we had wonderful time learning about Turkey, Native Americans, Pilgrims and Thanksgiving. Children had fun making native-American headbands, a turkey, singing songs about Native Americans and much more.

This is that time of the year again when we eagerly wait for family gathering, presents and lots of food, But....
unfortunately, this year we must celebrate with lots of restrictions. Please don't forget to be in groups of ten people or less, social distance and follow CDC guidelines.

This month we will learn about Winter animals, different Holidays, and New Year. Children love to create their own art projects and we will continue doing that. We recently started playing a new game with the children which is something like charades; someone will give a clue describing something that begins with the letter we are learning about, and others will have to guess what the thing is. Children are having a blast playing this new game. Parents can try playing this game with their child/children at home to help develop children's thinking skills and problem-solving skills and Language.

BUTTERFLIES (4 Year Olds)

Hello Parents,

Welcome to the month of December!!! Can you believe it? Yes, one more month and we will be entering 2021. Your children had so much fun last month learning about the weather changing and trees. We decided to change it up a little bit with our tree unit and decided to invest our learning into something that comes from trees which is apples.

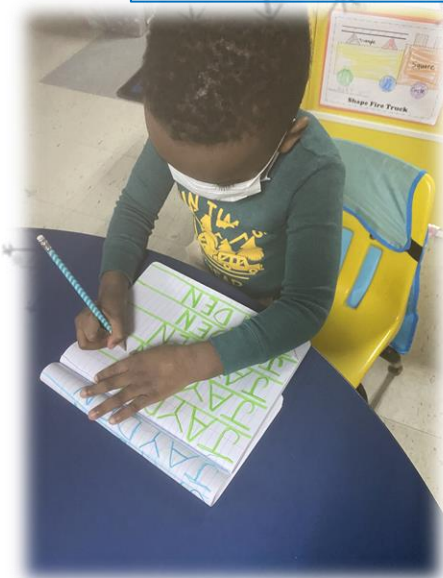

It has finally come to an end and we will do such a fun unit in the month of December. We will be having a Christmas unit which will involve math, letters and sound recognition, music, and literacy. We will be handing a unit letter to the parents as soon as we have it ready. Please stay safe and remember to wash those hands.

With Covid-19 happening, we want to make sure that our students are having so much fun while they are in school learning. The classroom team decided to switch it up and bring the holiday spirit in the butterflies room.

If you all have any questions, please reach out to us at Maritza@toddlertownevanston.com or Julissa@toddlertownevanston.com or Robert@toddlertownchicago.com

CHIPMUNKS (3 Year Olds)

Hello December!

Well time flies when you are having fun! Chipmunks had loads of fun last month exploring and learning about Trees and Pumpkins. We were hands on collecting leaves and had a cool sink or float pumpkin activity. For the month of December, we will start off with a new theme "Bread Study". This is one of my favorite themes of the year because all children can relate and learn about different breads from all over the world. Towards the end of the unit children will be able to answer... Where do we get bread from? How is bread made? Who makes bread? Do all breads look the same? Do they all taste the same? We have some fun and tasty investigations coming soon as well as some hands-on sensory experiments.

If you have any questions, please feel free to email me at:
